

# LED FLOODLIGHT WITH HOOD | CN-15

[www.smoothaviation.com](http://www.smoothaviation.com) | +44 1743 296406 | [info@smoothaviation.com](mailto:info@smoothaviation.com)

Uses for any helipads large or small. Provides powerful wash for safe movements on the helipad, **without blinding the pilot.**

## OVERVIEW

Running on 230v mains connection allowing simple connection to the rest of the Helipad. Fully dimmable and long hood protects the night vision of the people who need it most, the pilots. Powerful LED's mean a wash of light over the helipad floor makes movements and passenger loading safe.

Comes on a frangible base, designed to break when hit but allows a quick fix.

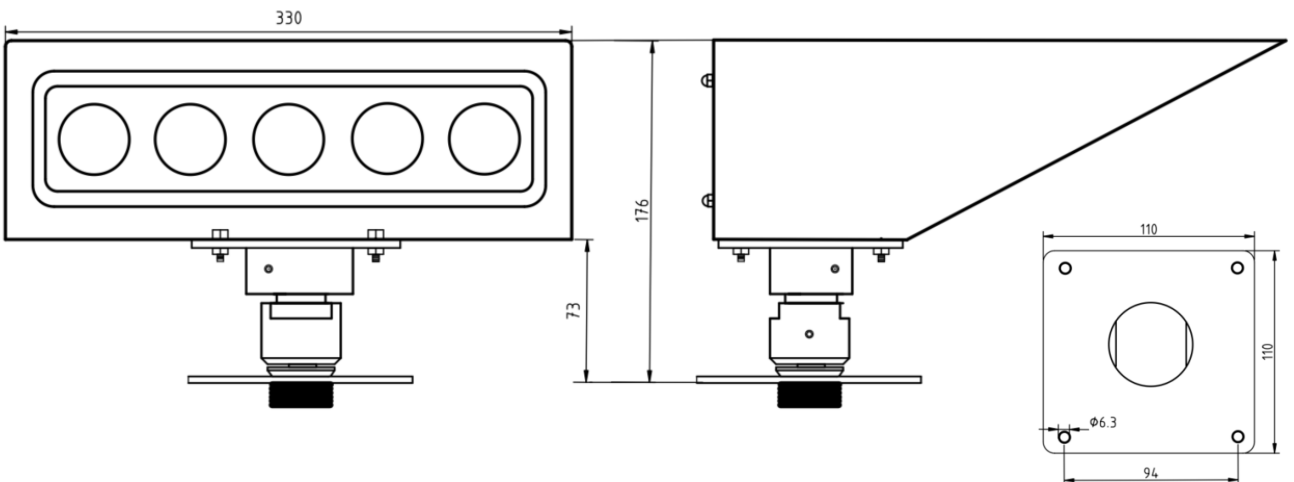

## TECHNICAL DATA

Waterproofing Rating	IP65
Voltage Rating	200 – 240VAC
Wattage (Average)	10 Watt
Amperage	0.7 Ampere
Dimmable Range	100% to 0%
Polarity Protection	Yes
Lumens	3000

## SIZE DATA

Available with either a round base plate or square, depending on anchor and installation options.
